Since 1972, Domus has helped thousands of our region's most vulnerable youth and their families experience success. The love, structure, and support we provide at our charter schools, residential programs, and community programs enable our kids and families to reach their full potential. Our ability to build relationships helps kids and families who may be struggling in school or in life focus on their strengths and make good choices.

Our approach focuses on key life transitions—moving from elementary to middle school, middle to high school, and high school to skilled work, college or vocational programs—which are critical to future success but are also when youth are most vulnerable.
